

**PROPOSED AMENDMENTS TO THE WESM MANUAL ON REGISTRATION, SUSPENSION, AND DE-REGISTRATION
CRITERIA AND PROCEDURES TO CLARIFY BILATERAL CONTRACTS ACCOUNTED FOR IN SETTLEMENTS**

Title	Section	Provision	Proposed Amendment	Rationale	Stakeholder Recommendation	Stakeholder Rationale
ENROLMENT AND DE-LISTING OF SUPPLY CUSTOMERS - Enrolment	3.5.1.1	Trading Participants that wish their transactions with their bilateral power supply contract customers (the “supply customers”) to be accounted for in the WESM settlements shall notify and enroll such supply customers with the Market Operator.	<i>Trading Participants</i> that wish their transactions with their bilateral power supply contract customers (the “ <i>supply customers</i> ”) to be accounted for in the <i>WESM</i> settlements shall notify and enroll such <i>supply customers</i> with the <i>Market Operator</i> .	To allow the declaration of retail supply contract quantities (RES-CC) as well.		
ENROLMENT AND DE-LISTING OF SUPPLY CUSTOMERS - Enrolment	3.5.1.2	The notice to the <i>Market Operator</i> shall include the following - a) details on the duration of the supply contract, b) desired effective date on which the bilateral contract transactions are to be accounted for in the WESM settlements. To the extent practicable, the effective date shall coincide with the start of a WESM billing month. c) identification of the <i>Trading Participant</i> that shall be responsible for the payment of line	The notice to the <i>Market Operator</i> shall include the following - a) details on the duration of the supply contract, b) desired effective date on which the bilateral contract transactions are to be accounted for in the WESM settlements. To the extent practicable, the effective date shall coincide with the start of a WESM billing month. c) identification of the <u>market trading node or nodes associated with the supply contract whose final energy dispatch price will be used as reference</u>	To harmonize with the WESM Manual on Billing & Settlement Issue 6.0 where the market trading node/s that serve/s as the delivery point of the contract are enrolled with the Market Operator, and the trading participants are provided the option whether or not to perform daily confirmation. It is also proposed that a copy of the supply contract not be required anymore since validation is achieved by the confirmation of the customer.

Title	Section	Provision	Proposed Amendment	Rationale	Stakeholder Recommendation	Stakeholder Rationale
SUPPLY CUSTOMERS - Enrolment			<u>Customer Trading Participants, except for Contestable Customers, as supply customers.</u>	<p>contestable customers shall only deal with suppliers.</p> <p>The proposal will allow Generator 1 to declare its BCQ with Generator 2 in the WESM. In the scenario that Gen 2, the buyer-generator, declares for its customer only a portion of the replacement power it bought from Gen 1, the seller-generator, it is assumed that Gen 2 will just sell the remaining energy in the spot market.</p>		
ENROLMENT AND DE-LISTING OF SUPPLY CUSTOMERS - Enrolment	<u>3.5.1.6</u> (new)	(new)	<u>Suppliers may only enroll supply customers that are Contestable Customers.</u>	For consistency with Section 4.1 of DOE DC2012-05-0005 that contestable customers shall only deal with suppliers.		
APPENDIX A - GLOSSARY OF TERMS		Supply Customer - Customers connected to the grid that are being supplied electricity by Generation Companies or Wholesale Aggregators under any power supply agreement or contract	Supply Customer - Customers connected to the grid that are being supplied electricity by Generation Companies or Wholesale Aggregators under any power supply agreement or contract.	To clarify that supply customers referred to in this manual covers WESM and retail customers that have power supply agreements/contract.
