Services for the Development of Modules for Certified Energy Conservation Officer, Certified Energy Auditor and Certified Energy Manager with E-learning	
<p>I. BACKGROUND</p> <p>The Energy Utilization Management Bureau (EUMB) is mandated to develop policies, implement plans and programs related to energy efficiency and conservation, and ensure effective implementation thereof in the government, industrial, commercial, residential and transport sectors, electric power industry participants, among others. It is a necessary thing for DOE to reach its audience in various ways. In the situation like where we are right now, technology would be a great ally on providing the Filipino people the information that they need to know. Information that would be beneficial to the consumers once they learn how to adopt and practice energy efficiency and conservation in their daily lives.</p> <p>With the approval of various issuances in line with the implementation of the EE&C Act, including its IRR (DC2019-11-0014), Section 54 and 66 of the said IRR of the Designated establishments are required to employ Certified Energy Conservation Officer (CECO), Certified Energy Manager (CEM) and necessitates energy audits that can be performed by a Certified Energy Auditor (CEA).</p> <p>Sections (Sec. 54 and 49.c) of the IRR indicates the need to develop training modules for individuals to be a CECO, CEM, and CEA.</p> <p>The DOE, CHED and TESDA shall have a period of three (3) years, beginning on the effectivity of RA 11285's IRR, to develop the CECO and CEM training modules and curricula. These modules that will have to be undertaken by prospective CECO, CEM and CEAs for their assessment and certification process established by the relevant agencies such as</p>	

TESDA, DOE, DOST and CHED, raising the professional standards of those engaged in energy management.

II. OBJECTIVES

The project aims to hire the services of a firm that has the capacity to conceptualize, develop, design, and write technical training modules outline, guides and references suitable for classroom or using e-learning mode following the established training regulations (TRs) for CECO, CEM and CEA as guides in the formulation of such. With the aim to make our local energy practitioners globally competitive, it is highly preferable that the training modules outline, guides and methods be aligned and in accordance to established and recognized global standard and practices such as those observed from the Association of Energy Engineers (AEE), ISO, ASHRAE, Energy Management Association (EMA), ASEAN Energy Management System (AEMAS) Program (PROMEEC) and similar equivalent institutions. This training module guides materials aim to serve as reference by the DOE and as well as for the DOE accredited/registered training institutions in the implementation of the training and certification program for CEM, CEA and CECO. The respective TRs are the following:
